I drive all over the country, and as a former over the road truck driver Xm Radio gave me advance notice of the traffic and weather at least 200 mile away so that I could plan the best for my trip or an other route. why should the NAB have control over this radio air way, this is just an other way to control what we hear, not a choice.

Please do not allow them to take over please do not pass the petition 04-160.

Thank you.
